

# Samadhi Jagathsiri

Computer Science Undergraduate / Full-Stack Developer

anurasamm@gmail.com | +94 70 426 7878 | LinkedIn | GitHub | Portfolio | Matara, Sri Lanka

## Summary

---

Final-year B.Sc. (Hons) Computer Science undergraduate with hands-on experience building full-stack applications using Java, Spring Boot, React, and Python. Delivered projects spanning REST API design, real-time systems, machine learning integration, and cloud deployment.

Strong foundation in backend development with a focus on scalable, production-ready solutions. Seeking a Software Engineering Internship to apply these skills in an industry setting.

## Projects

---

### HighwayLink – AI Integrated Full-Stack Carpooling Platform Live Web

- Built full stack ride sharing system with JWT , RBAC, and real time WebSocket updates.
- Integrated AI assistant for trip optimization and external APIs for maps & weather intelligence.
- Deployed using containerized architecture with Docker, Vercel, and Railway CI/CD pipelines.

**Technologies:** React, Tailwind CSS, Java 17, Spring Boot, MongoDB, OpenStreetMap, Leaflet, Google Gemini AI, Docker, WebSockets

### Customer Retention AI – Churn Prediction System Github

- Developed an end to end machine learning system to predict customer churn and provide actionable retention insights.
- The platform analyzes customer behavior to identify high risk users, estimate revenue impact, and recommend targeted retention strategies using a ML pipeline & interactive dashboard.

**Technologies:** Python, Scikit-Learn, Pandas, NumPy, Streamlit, Matplotlib, Joblib

### Calmera AI – AI Mental Wellness Chatbot Live App

- Build AI chatbot supporting mental wellness through intelligent conversation & emotion detection.
- Implemented sentiment analysis and RAG using LangChain and FAISS.

**Technologies:** Python, LangChain, Cohere LLM, FAISS, Streamlit, NLP

### InvexaIMS – AI-Powered Inventory Intelligence Platform Github

- Developed an AI driven inventory system that predicts product demand, detects sales anomalies, and provides real time risk scoring for inventory optimization.
- Implemented ML based demand forecasting, anomaly detection (Isolation Forest & Z-score), and an event driven backend for automated stock updates and alerts.
- Optimized system performance through caching and asynchronous processing, achieving sub-100ms backend response times.

**Technologies:** React, Spring Boot, Java 17, Python, FastAPI, Scikit-learn, MySQL

### Airline Aviate X – Airline Management System Github

- Designed a desktop airline management system supporting flight scheduling, booking management, and revenue reporting.

**Technologies:** C#, .NET Windows Forms, SQL Database, RDLC Reporting

## Skills

---

**Programming:** Java, Python, C, C#, R, JavaScript

**Backend :** FastAPI, Flask, Spring Boot, Node.js, REST APIs

**Frontend:** React.js, Next.js, React Native, HTML, Tailwind CSS, HTML5, CSS3, JavaScript

**Databases:** MongoDB, MySQL, SQL Server, SQLite

**AI & Data:** LangChain, NLP, Sentiment Analysis, Power BI, Data Analysis

**DevOps & Tools:** Docker, Streamlit, Git, Excel, Vercel, AWS

**Soft Skills:** Leadership, Communication, Team Collaboration, Problem Solving, Adaptability

## Education

---

**University of Kelaniya, Sri Lanka** 2023 – Present  
Bachelor of Science Honours in Computer Science – GPA: 3.541

**University of Colombo School of Computing (UCSC)** 2025 – Present  
Bachelor of Information Technology (BIT)

**Sujatha Vidyalaya, Matara** 2008 – 2021  
G.C.E Advanced Level – Physical Science Stream (2021)  
G.C.E Ordinary Level – 9 A passes (2018)

## Certificates & Badges

---

- |                                            |                                |
|--------------------------------------------|--------------------------------|
| ▪ AWS Cloud Practitioner – DataCamp        | ▪ Full Stack Development – UOM |
| ▪ SE Job Simulation – Wells Fargo — Forage | ▪ Python Programming – UOM     |
| ▪ Information security -HashX              | ▪ AI/ML Engineer - SLIIT       |

## Extracurricular Activities

---

Vice Secretary – Statistics & Computer Science Students' Association, UoK (2024 – 2025)  
Prooject Coordinator & Member – Rotaract Club, University of Kelaniya  
President – Science Society, Sujatha Vidyalaya (2020 – 2022)  
Member – Student Parliament, Sujatha Vidyalaya (2018 – 2021)  
Member – Model United Nations Club, Sujatha Vidyalaya

## Achievements

---

Finalist & Merit Award – Stat Bee Quiz Competition, SCSSA, UoK (2025)  
Merit Award – Astronomy & Astrophysics Olympiad (2016)
